Property Description

Location: Fuengirola, Costa del Sol, Málaga, Spain

New Development: Prices from €1,600,000 to €1,600,000. [Beds: 5 - 5] [Baths: 5 - 5] [Built size: 195.00 m2 - 195.00 m2]

Ecological and modern villa with impressive panoramic views over the Fuengirola coast.

Located in the north of Carvajal, in the exclusive area of the Higuerón reserve, where a large majority of new construction developments are concentrated in the city of Malaga due to its unbeatable location: just 10 minutes from the airport and just 25 minutes from Marbella. House Specifications: An elegant and modern design, the highest quality standards in its finishes and an innovative architectural project, make possible a very sustainable, efficient and environmentally friendly ecological house, ideal to enjoy life on the Costa del Sol and its wonderful weather. The house is in project, it will be built on a plot of 536mts2 and a constructed area of 230mts2 and its execution ends in January 2023. This newly built villa is a unique opportunity to enjoy all the luxury and comfort of the area, surrounded by nature and the wonderful landscape of Higuerón, just a few minutes from the beach and the city. Very accessible to the highway and all the services of Fuengirola and Benalmádena. This house will have 5 spacious bedrooms (4 with en suite bathrooms), toilet, covered and uncovered terraces, solarium with jacuzzi, play area and gym, laundry, large gardens, infinity pool, and garage for 3 cars. On the main floor we will find a bedroom with its bathroom en suite, a large open living room, dining room and integrated kitchen with an exquisite design that mixes modernity and functionality in each of its lines, large windows that give each room a great light and give a harmonious view to the exterior spaces of this floor: a garage with capacity for 3 cars, garden areas, different access porches, exterior living rooms and an imposing infinity pool that blends with the sea views. On the upper floor, the master bedroom with its en-suite bathroom and two dressing rooms, a second bedroom also with an en-suite bathroom, a large terrace and a solarium with a Jacuzzi that is accessed from this floor. All the rooms are designed so that the modern and the natural merge, where functionality and sustainability are prioritized. In the semi-basement ground floor we have a games room and gym, an incredible living room and cinema and two bedrooms (one with an en-suite bathroom) and a toilet. Also a laundry room. Some of the additional features include: Energy rating A. Great high-performance thermal insulation on all facades, basement walls, basement underlay and on roofs. Integrated system for the production of sanitary hot water by means of a high-performance aerothermal heat pump supported by solar panels. Comprehensive hot and cold air conditioning system throughout the house and additional underfloor heating system. Insulation with high thermal performance included in bearings and multipoint closures. Glass windows with interior and exterior anti-breakage systems. Ventilation system and air filtering throughout the house. Home automation system.
